Get IBM Planning Analytics (TM1) and its associated applications Workspace and the Microsoft Excel interface on the cloud.

We perform a like-for-like migration of data from TM1 perspectives to TM1 cloud including integration of data sources and setting up licenses and user access. We include 4 hours of user training to ensure users can play and use TM1 properly.

## Why go TM1 cloud

Cloud	Perspectives (on-premise)
frequent software releases	<i>software releases need to be managed</i>
99.7% uptime	<i>expect less uptime</i>
higher performance	<i>expect less performance</i>
superior security	<i>security needs to be managed</i>
IBM support	<i>support needs to be managed</i>
IBM infrastructure	<i>infrastructure needs to be managed</i>
